

Product Safety Recall

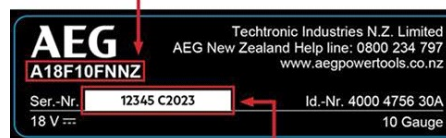

AEG 18V F-RAPIDFIRE 10GA 30°- 34° Framing Nailer (A18F10FNNZ)

Sold at Bunnings 1 August 2021 to 21 May 2025
18V cordless framing nailer. Affected products display model number A18F10FNNZ and the following production dates:

- Production dates prior to 39 2024 (example 24 2024)

- Production dates from 2021 to 2023

Production dates are printed on the rating label found on the magazine.

Defect

The nailer's firmware may allow a nail to discharge through use of the trigger alone and not via the usual 2 step actuation process.

Hazard

There is a risk of laceration injuries if the nailer discharges unintentionally.

What to do

1. Stop using the product immediately.
2. Check the production dates to see if you have an affected product. This can be confirmed via the AEG Product Recall Checker (www.aegpowertools.co.nz/framing-nailer-recall)
3. Contact Techtronic Industries N.Z. Limited to arrange for a repair free of charge. Do not take your product back to the place of purchase.
